## **Readings on Religion and Culture in Africa-**

Ejizu, Chris I. 2016-09-13 This is a book of reading on religion and culture in Africa comprising ten papers by experts in religion and cultural matters and an introductory note by the editor himself. Covered in the volume are papers covering: the impact of secularisation and urbanisation on a most cherished socio-cultural practice of the extended family system of the Isoko people in Nigeria; the traditional medical practices in Urhobo with particular focus on the use of local herbs to treat ailments; the socioreligious as well as the political significance of Obiri (family hall) in Ikwerre land; the rationale behind the use of the concept 'Dunamis' in the Gospel According to Saint Mark. Although his paper does not focus on African (traditional) religion, its inclusion here is based purely on the theological significance of the concept of 'Dunamis'; the extent to which evil spirits and mysterious forces have influenced the religion and culture of the Urhobo people of Nigeria; the significance of festivals in the traditional African society; John Wesley's innovations in Christendom and their implications for Africa; the recent unprecedented upsurge in the assumed use of religious powers to cast out evil spirits as well as for prayer healing among Muslims in Nigeria; the culture of alienation, anxiety and violence, drawing inspiration from

**Methodists and their Missionary Societies 1900-1996**-John Pritchard 2016-04-22 The twentieth century saw the spectacular growth of Christianity in much of the global south, the transformation of mission fields into self-governing Churches, schemes of church union (some successful, others abortive), evolving attitudes to other faiths and significant Christian engagement with issues of racial justice and world poverty. This book examines the contribution of the Methodist Missionary Society (and its predecessors before 1932) to these world-changing movements, from the remarkable mass conversions in south-west China and west Africa early in the century to the controversy over grants to liberation movements in the 1970s and 1980s. Pritchard traces the MMS contribution to education, health care, rural development and social welfare and describes the administration of the Societies and the selection and preparation of candidates for missionary service. This is a ground-breaking study of Methodist Overseas Mission in the twentieth century, how it adjusted to changing circumstances - including the forced withdrawals from China and Burma - and developed new initiatives and partnerships, including its World Church in Britain programme which brought missionaries from the younger Churches to serve in Britain and Ireland.

**The Organ Works of Fela Sowande: Cultural**

**Perspectives**-Godwin Sadoh 2007-10-04 Nigeria has been blessed with a few well-trained organist-composers since the arrival of Christianity in the most populous African country around the 1840s. The institutions established by European missionaries and the colonial administration had a great impact on the emergence of the 'Nigerian organ school'. The musicians had their formative periods at the mission schools, church choirs, and under organ playing apprenticeships. This book focuses on selected organ works by the most celebrated African art musician, Fela Sowande, a Nigerian organist-composer. Fela Sowande is the first African to popularize organ works by natives of Africa in Europe and the United States. He was one of the pioneer composers to incorporate indigenous African elements such as folksongs, rhythms and other types of traditional source materials in solo works for organ. He is considered the most prolific Nigerian composer for solo organ in Nigeria. The discussion of Sowande's music enunciates the relationship between traditional and contemporary musical processes in postcolonial Nigeria. A cultural and/or ethnomusicological analysis of Sowande's selected pieces for organ solo involves an examination of specific indigenous source materials such as rhythmic organization, melodic constructs/thematic materials (music communication), interrelations of music and dance, and elements of musical conception.

**Worship and Song**-Gary Alan Smith 2011-03  
The Worship & Song Leader's Edition contains the same music as the Pew Edition but is enlarged in size so that it can be used by worship leaders on a music stand or lectern. Also included are additional indexes useful to leaders planning for worship, a Scriptural Index, and the entire Worship Resources Edition. The Worship Resources Edition includes prayers and statements of faith (non-musical spoken acts of worship) organized by the Christian Year. It also includes indexes using topics and categories, and first lines. The Faith We Sing was published in December 2000 and has now sold more than 1 million pew copies to more than 3,000 churches. Since that publication date, much new music has been written for congregational worship. This follow-up is available in six editions: Music Pew Edition, Leader's Edition, Singer's Edition, Accompaniment Edition, Worship Resources Edition and Presentation Edition. Worship & Song distinguishes itself from The Faith We Sing because it contains services, acts of worship, and other worship resources.

**Jews in the Realm of the Sultans**-Yaron Ben-

Naeh 2008 Jewish society in the Ottoman Empire has not been the subject of systematic research. The seventeenth century is the main object of this study, since it was a formative era. For Ottoman Jews, the 'Ottoman century' constituted an era of gradual acculturation to changing reality, parallel to the changing character of the Ottoman state. Continuous changes and developments shaped anew the character of this Jewry, the core of what would later become known as 'Sephardi Jewry'. Yaron Ben-Naeh draws from primary and secondary Hebrew, Ottoman, and European sources, the image of Jewish society in the Ottoman Empire. In the chapters he leads the reader from the overall urban framework to individual aspects. Beginning with the physical environment, he moves on to discuss their relationships with the majority society, followed by a description and analysis of the congregation, its organization and structure, and from there to the character of Ottoman Jewish society and its nuclear cell - the family. Special emphasis is placed throughout the work on the interaction with Muslim society and the resulting acculturation that affected all aspects and all levels of Jewish life in the Empire. In this, the author challenges the widespread view that sees this community as being stagnant and self-segregated, as well as the accepted concept of a traditional Jewish society under Islam.

**Anglican-Methodist Ecumenism**-Jane Platt 2021-12-31 This book offers a detailed analysis of one of the key episodes of twentieth-century ecumenism, focusing on the efforts made to reconcile the Church of England and the Methodist Church of Great Britain in the years since the First World War. Drawing on newly available archives as well as on a broad range of historical, theological, and liturgical expertise, the contributions explore what was attempted, why success proved elusive, and how the quest for unity was reconfigured into the twenty-first century. The volume sets contemporary ecumenical ambitions in historical context, explains the origins, course, and aftermath of the Anglican-Methodist 'Conversations' of 1955-72, retrieves their enduring global legacy, and explores the fraught nature of the ecumenical quest. It will be of key interest to scholars with

They are not the traditional prayers of the church, for the most part, but the crying out of us "part-time" Christians who seek something more real. (from the Foreword)

#### **The Influence of Music on the Development of the Church of God (Cleveland,**

**Tennessee)**-Benson Vaughan 2018-03-23 This book examines the influence of music on the development of the Church of God (Cleveland, Tennessee). This narrative is historically driven, but relies upon an interdisciplinary approach to draw on the insights of ecclesiology, theology, liturgiology, church development, and especially music. This study utilizes a chronological and systematic approach to the relationship between music and the Church of God in the United States during the first 125 years of the denomination's history, from 1886 to 2011. For over a century,

music has been an often-neglected dialogue partner at the table of academic discussion and this research argues for recognition and a proper place in Pentecostal history. Along with primary and secondary sources, the important element of "living archives" is investigated in this work; these are interviews with people who participated in historical music events in the Church of God. The book also relies upon musical examples to explore the influence of music upon the shaping of the denomination's history and theology.
